

# The all-in-one consumer loan and account origination system

## Origination innovation

Our consumer LOS is designed to maximize operational efficiency across the entire loan process. From staff efficiencies such as autonomous account origination, data-driven decisions and lending models, to borrower-centric features such as branded online applications, fast approvals and security protection, Origence's consumer LOS will transform your lending operations into an end-to-end digital lending experience.

## Transform your consumer lending operations

Origence's consumer LOS connects your teams, systems and products to create a performance-driven loan and account origination platform. It's the single solution that will elevate your customer service, digital capabilities, and product satisfaction.

Discover the all-in-one loan and account origination system that will streamline the consumer lending experience.
