

Origence arc DX

Give members the personalized experience they want

Create the ultimate member journey for better pull-through and cross-sell opportunities.

Meet the demands of today's digital-first members with an intuitive and user-friendly borrowing and account opening experience on any device. With Origence arc DX, members can easily apply for a consumer loan, membership, and/or deposit account, and complete their post-application steps online. Origence arc DX works seamlessly with arc OS for a true end-to-end platform that covers the entire member journey.

Enable a true end-to-end experience

Allow members to apply and finalize loans and deposit accounts with the ability to upload documents, satisfy stipulations and e-sign.

Streamline every step

From pre-approvals and account openings to pre-filling forms and online signatures, arc DX speeds members towards their goals.

Leverage your brand

White labeled technology supports your financial institution's brand and digital strategy across multiple channels.

Offer the products members need most

Integrate arc DX with home banking and mobile apps, and enable members to apply for all consumer loans and deposit types, 24/7.

Boost staff efficiency

Automated processes and capabilities free your staff to focus on member service priorities.

Access world-class implementation and support

Seamlessly onboard, configure arc DX to your specifications, and receive individualized guidance as you need it.
